

Question: How often will I receive my CEC Transcript from the AAST?

Answer: AAST members can retrieve their CEC Transcript at any time by logging in at the AAST website and clicking “My CEC Credits.”

Question: Why are some of the continuing education credits which I have earned not listed on the AAST Transcript?

Answer: The AAST updates the CEC Transcript based on student lists received from educational providers whose programs were approved by the AAST CEC Program. AAST CECs are only tracked for AAST members in good standing during the time they are members. Please allow 90 days after the completion of an educational program for your AAST CEC Transcript to be updated.

If the student list received by the AAST does not have sufficient information, your AAST CECs may not be reflected on your AAST CEC Transcript.

Question: Why isn't the educational program that I attended that offered CME, CRCE, or CEU credits not listed on my AAST CEC Transcript?

The AAST CEC Transcript only lists educational programs that were approved for AAST CECs.

The AAST tracks credits from those educational providers who applied for AAST CECs in advance of the session/workshop date. A number of credit hours for each educational program is determined by the AAST. Educational providers are required to list the number of credit hours approved by the AAST in the program and submit the AAST CEC Student List of attendees to the association for verification and tracking purposes.

Question: Why isn't the educational program I attended (i.e. AAST Annual Meeting) listed on the AAST CEC Transcript I received?

Answer: If you were not an AAST member at the time you registered or if you registered using a different name than appears on your membership account, your AAST CECs from attending the approved educational program may not appear on your transcript.

Question: What happens to credits that are not on my AAST CEC Transcript? Do I lose them?

Answer: After attending an educational program approved your continuing education credit, you should have received a letter or certificate from the educational provider verifying your attendance and number of credits earned. These letters and certificates are accepted as proof of credits and can be submitted to the BRPT when you recertify.

Question: Can I turn in certificates of completion from other educational programs that I attended in the current year to receive AAST CECs?

Answer: Unfortunately, the AAST only awards CECs to educational providers whose programs meet the AAST CEC standards and were approved by the association in advance of the session/workshop date. Credits earned through AAST CEC Program will count towards RPSGT recertification. The AAST is unable to process individual requests after the educational program is completed.

Question: What should I do with my certificates of completion that provide credit hours (CME, CEU, CRCE) approved by other organizations and are accepted towards my recertification requirements by BRPT?

Answer: Keep those certificates on file and submit them to BRPT along with your AAST Transcript when your recertification date is due.

Question: I submitted my AAST CEC Evaluation Form for the latest issue of A2Zzz a few weeks ago and have not received my confirmation letter. When will I receive it?

Answer: Confirmation letters acknowledging that you have earned 1.5 AAST CECs will be mailed approximately six to eight weeks after the deadline to participating technologists who successfully complete this activity. For example, for the Volume 18 Number 3, you will receive your letter by January 15, 2010.

Further Questions or Information Needed?

If after reading the above information you require additional information, please complete the **Annual AAST CEC Educational Transcript Appeal Form**, located on the AAST Web site and submit it to the AAST National Office. Members submitting appeal forms (answering all requested information) will receive a response within ten (10) business days.
